## Enameled Glass.

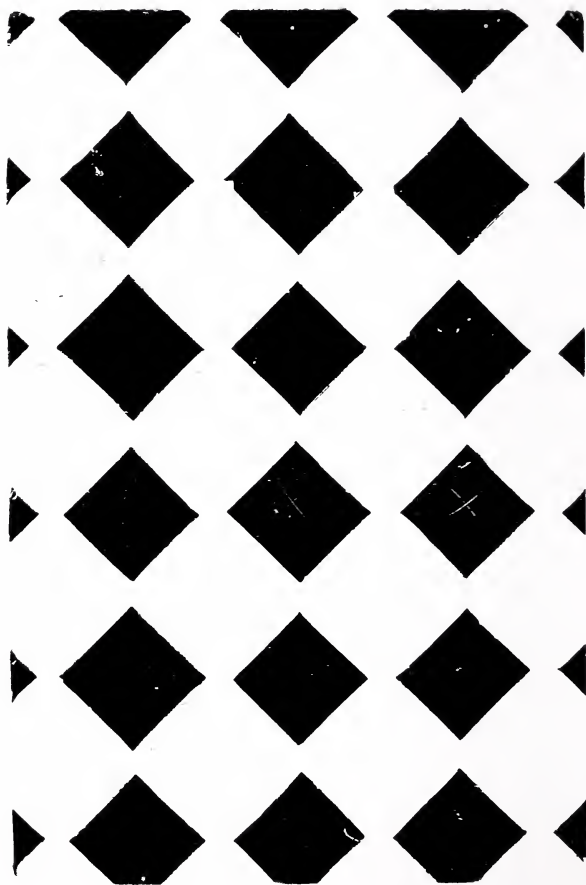

We call attention to the following patterns of Enameled Glass, of which we have a full stock constantly on hand, and would also call attention to **OUR NEW NUMBERS**, and the remarks over each pattern, to avoid any mistake in ordering. It is usually packed in cases of 100 feet each, but we will furnish any quantity in sheets, or cut to size. Parties ordering full cases can always rely on glass being in good condition when shipped, as we import direct our Enameled, Colored and Ground Glass, thereby saving frequent handling.

Samples of this Glass may be had free of charge.

We put up small samples of each design in a frame which is most convenient and attractive, as the frame can be hung up and samples shown with good effect. Sent by express collect, or forwarded by freight with a shipment of Window Glass.

**A**TENTION is called to the within illustrated **new** and improved designs of **FIGURED ROLLED GLASS**, for use in *Offices, Public Buildings and Private Residences*; also in the manufacture of Leaded work, and to be used instead of Enameled and Ground Glass in doors, transoms, office windows, and inside work. These designs are also specially adapted for use in panels, transoms and deck lights of steam and electric passenger cars.

This Glass has a wide reputation for having an exceptionally smooth cutting surface, is brilliant, easily kept clean, artistic in design, intercepts the vision and greatly increases the diffusion of light.

When drawing specifications be particular to specify the pattern selected, as shown on the following pages.

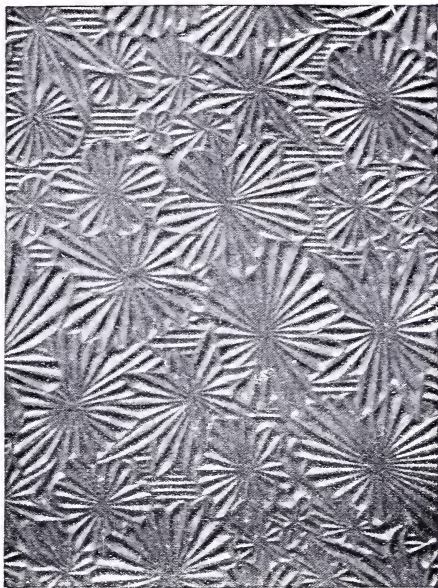

Original cases of each pattern contain 300 to 400 square feet. Assorted cases of different patterns can be furnished when desired at additional cost to cover cost of handling and boxing.

We put up small samples of each design in a frame, which is most convenient and attractive, as the frame can be hung up and samples shown with good effect. Sent by express, collect, or forwarded by freight with a shipment of Window Glass.
